

RAIN TEES

saving trees with tees

SAVING THE RAINFOREST ONE TEE AT A TIME

Rain Tees is a 100% eco conscious apparel line where every item you buy gives back to our tropical rainforests through organic agriculture, reforestation, education and the creation of green jobs.

WHY SAVE THE RAIN FOREST?

Tropical rainforests contain more plant and animal species than anywhere else in the world, control global weather patterns, and provide more than 20% of our earth's oxygen, yet they are disappearing at a rate of hundreds of acres each day.

CHILDREN DRAW WHAT THEY SEE

To create Rain Tees we donate art supplies to children living in endangered rain forests across Central and South America and ask them to draw what they see happening around them.

THESE ARE THEIR STORIES

Children traveling down the Amazon River in Ecuador on their local "school-bus".

Children in the Peruvian and Ecuadorian Amazon doing art sessions with Rain Tees.

SHARING THEIR STORIES

To share the stories of these children with the world, we print their names, countries, illustrations and thoughts on 100% eco friendly fabrics to create Rain Tees apparel, totes and accessories.

Children planting trees (left) in the Rain Forest of Costa Rica.

ECO-FRIENDLY & ETHICAL MANUFACTURING

Every Rain Tee is handmade right outside the Peruvian Amazon in our family owned and vertically integrated factories. Our Rain Tees staff are paid 25% above average wages so health care and education come first for them and their families.

EVERY RAIN TEE PLANTS A TREE

For every Rain Tee sold, a child in Costa Rica's most threatened tropical rainforest receives a tree to plant through the educational non-profit Kids Saving the Rain Forest.

BETH DOANE

Founder & Designer, The Andira Rain Tee Collection.
Founder Andira International

Beth grew up surrounded by nature and wildlife on a small farm in rural Ohio and created Andira International in 2005 as a fashion import and distribution company. Always passionate about the environment and the importance of education, Beth designed and launched Rain Tees in 2008 as a way to inspire consumers to take action on environmental and social issues. Beth additionally works as a consultant to corporations and designers interested in the marketing, production and design of eco-conscious products and speaks nationally about the need for more sustainable production and distribution. She is currently working on a children's book about the value of our tropical eco-systems and believes that every one of us can take small steps to create global change.

EVERY RAIN TEE EDUCATES

At Rain Tees we feel every child should have a chance.

That's why we sponsor each child whose artwork is chosen for a Rain Tees design to attend school in their home country.
